- **D Cllr Report**

If the Council has a project in mind for the community D Cllr Simon Howell could help with a donation again this year.

D Cllr Simon Howell has kindly offered another donation to the Parish Council towards a community project this year. However, the Parish Council agreed that other Parishes were in greater need.

Action Clerk to send letter thanking D Cllr Howell for his offer

- **C. Cllr Report**

There has been an investment to repair roads, this is happening in two stages, to repairs potholes then to resurface.

There is a number of schemes running to encourage recycling.

Results from the A120 consultation should be available shortly

Solar Farm

Mrs Debbie Candler has spoken to Noemie Dagueneat at LightSource regarding the weed killing at the Solar Farm site that has also killed the grass. Her report was delivered by Cllr Clare Beeston. The response from LightSource is that the weed killing is usual practice to treat the site with a selective herbicide prior to establishing grazing sheep as some plants are poisonous to sheep. It was pointed out that a non-selective herbicide had been used killing off all vegetation, Ms Dagueneat is to come back with more information about the use of the non-selective herbicide.

A Clause states that the site is to be grazed by sheep within a year, Ms Dagueneat said the site will be re-sown and sheep there by the end of the year, it was also mentioned that the hedges need watering and the oak standards are already dead. Watering is to take place if dry spell continues and the oak standards will be replaced in the autumn and the plot has been re-sown in the last week.

Council to review this at the meeting in September

Affinity Water are putting sensors in the road to detect leaks

Following a flood in June 16, Culverts have been jetted, this appeared to flush out something that looked like sewage. After being investigated, with the cooperation of local residents and Uttlesford District Council, this has been declared as sludge from the drains.

Hawkspur Green Lane being recognised as a divert route. Finally, after three times, Essex County Council have removed this Lane from their database so this should not happen again Cllr Terry Cutmore aims to get the road renamed as a lane to help avoid this happening again.

Cllr Andrew Davies has an Open Farm on Sunday 11th June from 11am-4pm, Information has been put up around the parish and on noticeboards.

There is a blocked pipe by the White House, this is causing a problem with drainage with possible sewage outfall. Something will have to be done to rectify this situation.

From the Autumn, the council will need a new public venue to hold meetings, all suggestions are welcome.

Meeting Closed at 9.15pm
